Update on ERA 2.0

David Lake

Program Manager, ERA

Sam McClure

Electronic Records Program Director

Christopher E Kline

Director, Records Management Training

- Agency Use of ERA 2.0
- Key ERA 2.0 Enhancements
- Preview of ERA 2.0 Dashboard Screens
- ERA 2.0 Training

Agency Use of ERA 2.0

ERA 2.0 will replace the current ERA as the system used for:

- Records Scheduling process (i.e., Records Schedule forms & workflows)
- Transfer process for all permanent Federal records, analog and digital (i.e, Transfer Request forms & workflows)

ERA 2.0 is already in use by NARA accessioning staff as the repository for digital accessions

Prerequisites to enable Agency Use of ERA 2.0

- NARA's successful migration of Records Schedules and Transfer Requests from ERA Base to ERA 2.0
- Availability of online training and job aids
- User accounts set up

Agency Use of ERA 2.0

Migration of Records Schedules & Transfer Requests to ERA 2.0

- Project underway to analyze form data from the current ERA and map it to the revised forms in ERA 2.0
- Forms will be migrated to their equivalent statuses in ERA 2.0
- General cleanup of draft schedules from before FY 2020 ([AC 22.2022 Draft Schedules in ERA](#) and [AC 30.2022 Locating Draft Records Schedules in ERA](#))
- Specific Records Schedule and Transfer Request issues being addressed by NARA appraisal and accessioning staff with their agency counterparts
- Final migration of data early in calendar year 2023 will require a pause in the use of ERA for a period estimated to be no more than four weeks

Agency Use of ERA 2.0

User Accounts

- ERA 2.0 Agency user roles same as current ERA roles (Records Scheduler, Certifying Official, Transferring Official, Approving Official)
- NARA will create accounts in ERA 2.0 for all current agency users of ERA based on current ERA user profiles
- Authentication with PIV/CAC
 - Requires active ERA 2.0 account and an active OMB MAX profile
 - For users who do not have a PIV/CAC we can support with alternate authentication means
 - User guide to set up OMB Max profile coming soon

Agency Use of ERA 2.0

Timeframe for Agency Use

- If data migration and the related efforts remain on schedule, we are set to release ERA 2.0 for agency use around the beginning of March 2023
- We will refine and update the schedule for the shutdown of ERA Base and the release of ERA 2.0 for Agency use as we closer to the end of this year
- Many more details regarding user accounts, training, and the use of the system to come

Agency Use of Direct Upload to ERA 2.0

- NARA looking to Pilot Agency use of the Upload feature of ERA 2.0 after release

Key ERA 2.0 Enhancements

Revisions to Records Schedule and Transfer Request forms

- Examples
 - In the Records Schedule, adding the field to support the scheduling requirement for Tribal consultation
 - Agencies will be able to use Permanent GRS Items as Disposition Authorities in Transfer Requests

Updated Dashboard

- Better visibility into the status of forms throughout their approval lifecycle

ERA 2.0 removes confusion of multiple versions of forms

- System manages one version of a form, always up to date, and with a history log showing all past changes to that form
- Search Results only display that one latest version of a form

Key ERA 2.0 Enhancements

User access to forms now based on organization rather than Record Group (RG)

- Goal of maintaining user access in a more straightforward manner
- More flexibility in using RGs in forms

Agency users will now be able to access attachments to forms

Compatible with Google Chrome and Microsoft Edge

Regular future releases of enhancements and fixes

- Updated job aids and other documentation
