Instructions: Slashes separate search terms and phrases. **Copy the exact phrase** into the [Online Catalog](#), including quotation marks, if present. Always be willing to experiment with search terms. Quoted phrases return very different results than non-quoted phrases. Using the geographic location or most relevant word or words from the tribal name, with one of the following words may also prove beneficial: **Indian** (most useful), **Native**, **Tribe**, **Reservation**, or **Village**. Be sure to link to modern tribal pages. They contain current information and more possible search terms.

Bureau of Indian Affairs (BIA) Records (Record Group 75):

To focus on BIA records in the Online Catalog, use "advanced search" and enter 75 into the Record Group field.

Although important, the BIA is only one of many Federal agencies containing important records of Native Communities. For various reasons there are often periods of time where BIA records are not available for individual tribes. Other techniques should be used for these periods, such as searching by geographic area and/or time-period and widening the search to include ALL Federal agencies.

Individual Community records could also be "buried" in BIA agency files not described in the Online Catalog in great enough detail to be searched directly by community name. Doing an advanced search using one or two words from the BIA office name or the entire office name in quotes, along with Record Group 75, may be beneficial. Some BIA offices known to hold **Agua Caliente Cahuilla** records follow:

1921-1952 Mission Indian Agency, 1923-1947 Sacramento Agency, 1936-1957 Palm Springs Subagency, 1935-1945 Field Aid (Palm Springs District), 1955-1980 Northern California Agency, 1947-1971 Riverside Field Office, 1908-1967 Portland Area Office, 1926-1952 Phoenix Area Office, 1928-1973 Sacramento Area Office

Bureau of Indian Affairs (BIA) Records (Record Group 75):

To focus on BIA records in the Online Catalog, use "advanced search" and enter 75 into the Record Group field.

Although important, the BIA is only one of many Federal agencies containing important records of Native Communities. For various reasons there are often periods of time where BIA records are not available for individual tribes. Other techniques should be used for these periods, such as searching by geographic area and/or time-period and widening the search to include ALL Federal agencies.

Individual Community records could also be "buried" in BIA agency files not described in the Online Catalog in great enough detail to be searched directly by community name. Doing an advanced search using one or two words from the BIA office name or the entire office name in quotes, along with Record Group 75, may be beneficial. Some BIA offices known to hold **Blue Lake Rancheria** records follow:

1880-1954 Hoopa Valley Agency, 1911-1980 Northern California Agency, 1923-1947 Sacramento Agency, 1908-1951 Portland Area Office, 1928-1973 Sacramento Area Office, 1937-1942 Phoenix Area Office

Bureau of Indian Affairs (BIA) Records (Record Group 75):

To focus on BIA records in the Online Catalog, use "advanced search" and enter 75 into the Record Group field.

Although important, the BIA is only one of many Federal agencies containing important records of Native Communities. For various reasons there are often periods of time where BIA records are not available for individual tribes. Other techniques should be used for these periods, such as searching by geographic area and/or time-period and widening the search to include ALL Federal agencies.

Individual Community records could also be "buried" in BIA agency files not described in the Online Catalog in great enough detail to be searched directly by community name. Doing an advanced search using one or two words from the BIA office name or the entire office name in quotes, along with Record Group 75, may be beneficial. Some BIA offices known to hold **Capitan Grande Diegueño** records follow:

Bureau of Indian Affairs (BIA) Records (Record Group 75):

To focus on BIA records in the Online Catalog, use "advanced search" and enter 75 into the Record Group field.

Although important, the BIA is only one of many Federal agencies containing important records of Native Communities. For various reasons there are often periods of time where BIA records are not available for individual tribes. Other techniques should be used for these periods, such as searching by geographic area and/or time-period and widening the search to include ALL Federal agencies.

Individual Community records could also be "buried" in BIA agency files not described in the Online Catalog in great enough detail to be searched directly by community name. Doing an advanced search using one or two words from the BIA office name or the entire office name in quotes, along with Record Group 75, may be beneficial. Some BIA offices known to hold **Fort Bidwell Community** records follow:

1896-1918 Roseburg Agency, 1898-1939 Fort Bidwell School and Agency, 1921-1973 Sacramento Area Office, 1923-1947 Sacramento Agency, 1932-1950 Portland Area Office, 1943-1947 Phoenix Area Office, 1947-1949 California Agency, 1955-1980 Northern California Agency

Bureau of Indian Affairs (BIA) Records (Record Group 75):

To focus on BIA records in the Online Catalog, use "advanced search" and enter 75 into the Record Group field.

Although important, the BIA is only one of many Federal agencies containing important records of Native Communities. For various reasons there are often periods of time where BIA records are not available for individual tribes. Other techniques should be used for these periods, such as searching by geographic area and/or time-period and widening the search to include ALL Federal agencies.

Individual Community records could also be "buried" in BIA agency files not described in the Online Catalog in great enough detail to be searched directly by community name. Doing an advanced search using one or two words from the BIA office name or the entire office name in quotes, along with Record Group 75, may be beneficial. Some BIA offices known to hold **Santa Ysabel Iipay** records follow:

1908-1909 Pala Superintendency, 1908-1967 Portland Area Office, 1916-1929 Special Allotting Agent, 1919-1920 Soboba Superintendency, 1920-1921 Pala Superintendency, 1921-1952 Mission Indian Agency, 1922-1947 Pala Subagency, 1926-1952 Phoenix Area Office, 1928-1973 Sacramento Area Office, 1947-1971 Riverside Area Field Office, 1955-1980 Northern California Agency, 1971-1986 Southern California Agency.

Bureau of Indian Affairs (BIA) Records (Record Group 75):

To focus on BIA records in the Online Catalog, use "advanced search" and enter 75 into the Record Group field.

Although important, the BIA is only one of many Federal agencies containing important records of Native Communities. For various reasons there are often periods of time where BIA records are not available for individual tribes. Other techniques should be used for these periods, such as searching by geographic area and/or time-period and widening the search to include ALL Federal agencies.

Individual Community records could also be "buried" in BIA agency files not described in the Online Catalog in great enough detail to be searched directly by community name. Doing an advanced search using one or two words from the BIA office name or the entire office name in quotes, along with Record Group 75, may be beneficial. Some BIA offices known to hold **Middletown Rancheria** records follow:

1859-1924 Round Valley Agency, 1896-1920 Roseburg Agency, 1909-1911 Upper Lake - Ukiah Agency, 1921-1973 Sacramento Area Office, 1923-1947 Sacramento Agency, 1932-1950 Portland Area Office, 1947-1949 California Agency, 1955-1980 Northern California Agency, 1968-1990 Central California Agency

Other techniques should be used for these periods, such as searching by geographic area and/or time-period and widening the search to include ALL Federal agencies.

To focus on BIA records in the Online Catalog, use "advanced search" and enter 75 into the Record Group field.

Although important, the BIA is only one of many Federal agencies containing important records of Native Communities. For various reasons there are often periods of time where BIA records are not available for individual tribes. Other techniques should be used for these periods, such as searching by geographic area and/or time-period and widening the search to include ALL Federal agencies.

Individual Community records could also be "buried" in BIA agency files not described in the Online Catalog in great enough detail to be searched directly by community name. Doing an advanced search using one or two words from the BIA office name or the entire office name in quotes, along with Record Group 75, may be beneficial. For various reasons there are often periods of time where BIA records are not available for individual tribes. Other techniques should be used for these periods, such as searching by geographic area and/or time-period and widening the search to include ALL Federal agencies.

Individual Community records could also be "buried" in BIA agency files not described in the Online Catalog in great enough detail to be searched directly by community name. Doing an advanced search using one or two words from the BIA office name or the entire office name in quotes, along with Record Group 75, may be beneficial. Some BIA offices known to hold **Sycuan Kumeyaay** records follow:

1908-1967 Portland Area Office, 1915-1921 Pala Superintendency, 1921-1952 Mission Indian Agency, 1922-1947 Pala Subagency, 1926-1952 Phoenix Area Office, 1928-1973 Sacramento Area Office, 1935-1945 Field Aid [Palm Springs District], 1955-1980 Northern California Agency, 1971-1986 Southern California Agency

Bureau of Indian Affairs (BIA) Records (Record Group 75):

To focus on BIA records in the Online Catalog, use "advanced search" and enter 75 into the Record Group field.

Although important, the BIA is only one of many Federal agencies containing important records of Native Communities. For various reasons there are often periods of time where BIA records are not available for individual tribes. Other techniques should be used for these periods, such as searching by geographic area and/or time-period and widening the search to include ALL Federal agencies.

Individual Community records could also be "buried" in BIA agency files not described in the Online Catalog in great enough detail to be searched directly by community name. Doing an advanced search using one or two words from the BIA office name or the entire office name in quotes, along with Record Group 75, may be beneficial. Some BIA offices known to hold **Utu Utu Gwaitu Paiute** records follow:

1853-1861 Utah Superintendency, 1869-1870 Nevada Superintendency, 1908-1925 Reno Agency, 1911-1921 Digger Agency, 1915-1926 Bishop Sub-Agency, 1916-1946 Portland Area Office, 1923-1947 Sacramento Agency, 1926-1935 Walker River Agency, 1928-1973 Sacramento Area Office, 1947-1949 California Agency, 1955-1980 Northern California Agency, 1968-1990 Central California Agency

To focus on BIA records in the Online Catalog, use "advanced search" and enter 75 into the Record Group field.

Although important, the BIA is only one of many Federal agencies containing important records of Native Communities. To focus on BIA records in the Online Catalog, use "advanced search" and enter 75 into the Record Group field.

Although important, the BIA is only one of many Federal agencies containing important records of Native Communities. For various reasons there are often periods of time where BIA records are not available for individual tribes. Other techniques should be used for these periods, such as searching by geographic area and/or time-period and widening the search to include ALL Federal agencies.

Individual Community records could also be "buried" in BIA agency files not described in the Online Catalog in great enough detail to be searched directly by community name. Doing an advanced search using one or two words from the BIA office name or the entire office name in quotes, along with Record Group 75, may be beneficial. Some BIA offices known to hold **Pyramid Lake Paiute** records follow:

Bureau of Indian Affairs (BIA) Records (Record Group 75):

To focus on BIA records in the Online Catalog, use "advanced search" and enter 75 into the Record Group field.

Although important, the BIA is only one of many Federal agencies containing important records of Native Communities. For various reasons there are often periods of time where BIA records are not available for individual tribes. Other techniques should be used for these periods, such as searching by geographic area and/or time-period and widening the search to include ALL Federal agencies.

Individual Community records could also be "buried" in BIA agency files not described in the Online Catalog in great enough detail to be searched directly by community name. Doing an advanced search using one or two words from the BIA office name or the entire office name in quotes, along with Record Group 75, may be beneficial. Some BIA offices known to hold **Yomba Shoshone** records follow:

1849-1870 Utah Superintendency, 1861-1870 Nevada Superintendency, 1925-1952 Carson Agency, 1936-1974 Phoenix Area Office, 1952-1975 Nevada Agency
